DETAILED ACTION

Allowable Subject Matter

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "monitoring (keeping track of) the number of desired cycles in an AC current flowing through the fluorescent lamp with amplitudes (above) exceeding a preset threshold" in a manner claimed in claims 1, 11, 12 and 13. It is for this reason in combination with all the other limitations in the independent claims 1, 11, 12 and 13, and in light of the terminal disclaimer filed on 2-25-05 that claims 1-13 are allowable over prior art of record.

Remarks

The Weindorf patent, U.S. Patent No. 6, 670,781, which has been brought to the examiner's attention by applicant does not qualify as "prior art" because the Weindorf patent is filed over a year after the parent of the instant application Choi patent, US Patent No. 6,469,922 is filed. The instant application is a straight continuation over Choi patent, US Patent No. 6,469,922 that is filed on June 22, 2000.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
